

PowerArt Redlands

You could make our city a more colourful and creative place!

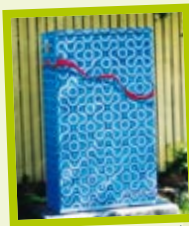

Redland City Council and Queensland Urban Ecology invite you to submit an original design that could transform one of 21 traffic signal boxes throughout the Redlands into a work of art.

Artwork submissions are due to Queensland Urban Ecology by 18 August 2008.

Individuals, groups, organisations, schools or families are encouraged to make a submission. Designs will be assessed and selected artists will be assigned a traffic signal box to paint. Approved artists will be supplied with an artist's kit that includes paints and safety equipment.

Whether you are a professional artist or have never picked up a paint brush before, have a go and submit a design!
